

○ ACKNOWLEDGEMENTS

I would personally like to thank wholeheartedly all participants and members of the Editorial Board who have supported this exercise.

On behalf of the authors and the Editorial Board, I would also like to take this opportunity to thank:

- The German Federal Office for Radiation Protection (BfS, <http://www.bfs.de/>), in particular to Kathrin Hable and Christian Hoebler, for providing us with the daily dose-rate measurements used in this exercise;
- Stoitchko Kalenderski and Patrick Petit (Joint Research Centre, European Commission) who kindly offered technical assistance needed to filter and extract the datasets from the database and to set up the restricted web site used to record the download and upload times of the participants;
- Tore Tollefsen (Joint Research Centre, European Commission) who has contributed to rendering a number of manuscripts more readable and provided me with useful feedback.
